

## IROX™ ShapingCocoon™ guarantees

### AN EASY TO INSTALL, COMPLETE SYSTEM

No specific requirements are needed for installation; the design facilitates a maintenance free daily use. The steam is generated by an internal water reservoir built in the machine.

### MULTIPLE TREATMENT POSSIBILITIES FOR GENERATING MORE REVENUE

Associating the IROX™ ShapingCocoon™ with your current treatment protocols multiplies their effectiveness. Offering your clients greater results and new, innovative services, that are both efficient and highly profitable, has never been easier.

### HANDS-FREE TECHNIQUE

The IROX™ ShapingCocoon™ offers 3 pre-set treatment programs plus one PERSONALIZED program for easy customization. Each IROX™ treatment program automatically sequences the machine's functions without any additional intervention, following the desired theme: SLIMMING, SHAPING, SMOOTHING...

### SUCCESSFUL RESULTS MAKE MORE MONEY

IROX™ treatment packages can be designed to achieve your client's short and long-term goals. IROX™ technology and methodology provides satisfying, superior results for the greatest advertising of all - 'word-of-mouth publicity from happy customers to their friends and family'. IROX™ owners make more money selling IROX™ programs and packages to excited new customers, and eager repeat customers.

**The best in multi-sensory technology for a slim, shapely body and smooth skin**

### TECHNICAL SPECIFICATIONS

- Weight : 120 kg
- Height (closed) : 102 cm
- Height (open) : 213 cm
- Length : 230 cm
- Width : 90 cm
- Required electric current : 230 - 240 V. 50 - 60 Hz
- Amps : 15 A

### IROX™ ShapingCocoon™ FUNCTIONS

- Far Infrared : 3 organic ceramic emitters, wavelength: between 5 and 20 micrometers
- Near Infrared : 8 Near Infrared light intensity modules with wavelength of 905-940nm
- Light Emitting Diodes : 36 Super-Intense Diode LED light intensity modules, each with 22 SI-LED lamps: 14 at the 630nm wavelength.
- 99.99% Pure Oxygen diffusion (face and body chamber)
- Whole Body Steam Hammam
- Whole Body Dry Heat
- Vibratory massage bed
- Aroma diffusion system
- Liquid vitamin diffusion system
- Music therapy
- Multimedia video
- DVD player compatible
- Cool Face air
- Acrylic bed
- Anti-fatigue mat

## FEATURING THE NEW IROXOLOGIE™ TECHNOLOGY

*Body Slimming, Shaping and Skin Smoothing*

## IROX™ ShapingCocoon™ : A MULTI-SENSORY, 'ALL-IN-ONE' COCOON PATENTED FOR BODY SLIMMING, SHAPING and SKIN SMOOTHING

Sybaritic™, Inc. is world-famous as the innovator of new treatment concepts for the body, and is globally renowned as the original inventor and dominant leader of 'Multi-Sensory Cocoon', 'Spa Capsule' and 'Medical Capsule' systems (with 110 patents in design and technology in more than 30 different countries) and has sold more than 30,000 multi-sensory systems all over the world.

Sybaritic™ introduces the revolutionary **IROX™ ShapingCocoon™**, which is recognized as the world's first, patented 'multi-sensory, adult- incubator cocoon, body slimming system'. The incredible IROX™ has stimulating, advance-wave technology for body slimming, shaping and skin smoothing.

### PATENTED IROXOLOGIE™ TECHNOLOGY

The innovative invention has generated headlines for the discovery of a new combination of synergized holistic technologies, known as **IROXOLOGIE™** (i.e., infrared, oxygen and light), which is a complementary association of organic **ceramic far-infrared + 99.99% pure oxygen + 792 Super-Intense Diode LED's** at 630nm wavelengths for cellular stimulation, pre/post med-aesthetic recovery, accelerated healing, new cell growth; and, **SI-LED's** at 905-940nm near-IR wavelength for circulatory enhancement, and thermal epidermis/dermis stimulation for collagen formation and remodeling.

For more superior results, Sybaritic has combined **IROXOLOGIE™** with the proven slimming and cellulite reduction method of **HYDROFUSION™** (i.e., a patented technology mix method of dense thermal energized steam + Far-IR + vibration waves).

The **IROX™ ShapingCocoon™** sets itself apart by a series of systematic functions that reinforce the benefits of Far Infrared heat and Steam, which allow for a multiplicity of treatment protocols with augmented results. Combined with your skincare products, you are able to create original and result oriented protocols that will amaze your clients who are seeking body slimming, shaping results along with a regenerated smooth and youthful skin.

## SLIMMING, SHAPING, SMOOTHING THE BENEFICIAL ACTION OF IROXOLOGIE™

### FAR INFRARED HEAT

The Far infrared spectrum of the IROX™ ShapingCocoon™ is between 5 and 20µm, ideally absorbable by the human body and triggers an intense metabolic stimulation which burns calories, increases perspiration and vasodilatation, and improves the cellular exchanges and re-oxygenation of the tissues.

### WHOLE BODY STEAM HAMMAM

Dilates and unclogs skin pores, stimulates perspiration and elimination of toxins. Dense, thermal-energized steam (TES) opens pores and improves penetration of the active ingredients contained in dermo-cosmetic products. TES ensures re-hydration of the superficial layers of the epidermis, and provides secondary thermal stimulation to the dermal-epidermal junction (DEJ).

**LIGHT EMITTING DIODE** modules: 36 Super-Intense Diode LED Light Intensity Modules (LIM's), each with 22 professional grade SI-LED lamps, including 14 lamps at 630nm wavelengths for cellular stimulation, recovery, healing, new cell growth and 8 lamps at the near-IR wavelengths of 905-940nm for thermal stimulation.

**99.99% PURE OXYGEN** : The ambient air of the cocoon body chamber and/or the cooling fans to the face can be infused with refreshing pure oxygen, or by dual delivery to both body (capsule) and face. Oxygen infusion and absorption feeds the skin and metabolism, is inhaled and provides greater oxygen uptake for increased metabolic performance and enhanced biochemistry activity of all cellular processes; true anti-aging, fat burning, metabolic increase and a refreshing myriad of relaxing healthful benefits are provided via the organisms' extra-oxygen uptake.

### PROVEN EFFECTIVENESS AND CONFIRMED RESULTS

A recent scientific medical study of Hydrofusion™ reveals statistically significant improvements on the following characteristics:

- The 'orange peel' appearance without manual pinching is reduced by **50 %**.
- An improvement in the body silhouette and a firming effect for **87.5%** of the subjects.
- Up to **11 lbs / 5,5Kgs.** weight loss.
- An improvement in thigh firmness of **74,5 %**.
- **100 %** improvement in skin condition.

### PSYCHO-SENSORY ACCEPTABILITY

- 94%** client satisfaction.
- 81%** mood improvement.
- 87%** body shape improvement.
- 60%** improvement in quality of sleep.
- 88%** of the subjects wish to continue regular treatments.

### IROX™ OBJECTIVE : SLIMMING

The combination of the Far Infrared and Steam triggers a thermo-cellular genetic action that increases blood and lymphatic circulation, reviving the drainage mechanisms, and eliminating excess waste and toxins.

The Steam dilates the pores and allows a better penetration of dermo-cosmetic products.

#### THE TARGET Achievements

- Sculpting of the body silhouette
- Weight loss
- Cellulite

### IROX™ OBJECTIVE : SHAPING

Effective cellulite reduction and body contouring can only be achieved by vigorously increasing circulation, stimulating metabolism and eliminating excess fluids.

Iroxologie™, with the features of enhanced oxygen atmosphere, 630nm Super-Intense Diode LED's and vibratory wave bed, creates molecular vibration of the skincells, stimulates the blood circulation and lymphatic system and disperses the congestion in the tissues, reducing the appearance of rippled 'orange peel' and cellulite-plagued skin.

#### THE TARGET Achievements

- Drainage
- Vasodilatation
- Toning and firming of the skin

### IROX™ OBJECTIVE : SMOOTHING

The invigorating steam bathes and cleanses the skin with liquid vitamins and essential aromatherapy, facilitating the oxygenation of the tissues and insulates the skin with layers of rejuvenating moisture.

Iroxologie™ dilates the pores and improves the elimination of toxins, while re-hydrating and infusing oxygen into the skin to stimulate fibroblastic activity for improved elastin and collagen syntheses. Iroxologie promotes new skin that is suppler, with a radiant and younger looking glow.

#### THE TARGET Achievements

- Re-oxygenation of the tissues
- Cleansing re-hydration
- Anti-age

**Used alone or combined with other body-aesthetic techniques, the new IROX™ ShapingCocoon™ is an essential 'all-in-one' system for superior slimming, shaping and smoothing treatments, guaranteeing results and pleasure.**
